

NPS Interpretive Development Program Northeast Region Peer Review (Certification) Submissions: FY96 – FY02

Interpreters have been submitting products for peer review to the NPS Interpretive Development Program since the program began in 1996. This chart measures participation in the program for sites in the Northeast Region. Sites are grouped according to administered interpretive units. Sites that have participated are listed in bold. Sites in parentheses do not have separately assigned interpretive staff.

The chart lists submissions only. For statistics about products that achieve certification, go to the NPS Interpretive Development Program web site, www.nps.gov/idp/interp then click on "updates". Statistics are updated with information from the Stephen T. Mather Training Center.
